We are studying "Goldsmith," in English and I certainly do enjoy it.

Mr. "Quick", and Miss Mearns have not come back yet.

The "nurse" came out tonight and I will send you a copy.

With all my love for my dear Papa.

Your devoted
Rose.

My own precious Papa.

I will just have to write with a pencil as there is no ink in study-hall and I am not allowed to go out and get some.

Well very nearly all of the girls have gotten back and it seems like old times again

The lasts came in this after-
noon. I am hard at work
again. I took my first music
lesson this afternoon.

We have the Orchestra
recital to-morrow night
and I just know it is
going to be beautiful for
I can hear them practic-
ing now. And Saturday
night we have a lecture
by Mr. Peral from Wake
Forest; and Saturday
afternoon University is
going to play A & M. but
I am not going as I have
"other fish to fry"
I wrote Pally how to have
every thing made and
I certainly do hope Miss
Berta can let me have
the thing soon, as the
Recital starts next week.
